  Button style pointer uses one round button for mouse cursor movement of 360°.

Features:
OEM Design
Sealed "Hard" gold plated switch contacts
Port compatible with all computers - no software drivers needed
Repairable design
Plug and Play
No Drift Design
No moving electrical parts or magnets
USB or PS/2 Output
Direct factory support - Made in USA

Temperature Ratings:
Operating Temperature: -40º to 80º C
Storage Temperature: -40º to 80º C

Reliability:
MTBF (Mean Time Between Failures):   100,000 hours per MIL-HDBK-217F.
Shock Rating: 50g   11ms - 1/2 sine
Sealing: NEMA 4, NEMA 4X (IP66)
Vibration: Mil-Std-810F, Category 4
Buttons   Rated for up to 10 million cycles

Certifications:
Meets FCC Part 15 Class A & B
Meets CE Requirements, RoHS Requirements
ESD rated to 15KV
USB Protocol Specification 1.1 & 2.0 Compliant, USB HID Specification 1.11 Compliant

United States Patents:
U.S. Patent No. 7,499,032
U.S. Patents Pending 12/344368
